

Shoot for the Stars!

Groundbreaking Smile Makeovers with Lumineers Dentists, Dr. Michael Kirk, Dr. Janice Henry, and Dr. Nathan Proud

We can put a man – a whole colony of men – in orbit 173 miles above the earth. You'd better believe we can do some amazing things with **cosmetic dentistry**. At Grand Dental Nichols Hills, **Dr. Kirk, Dr. Henry, and Dr. Proud** are at the forefront of modern esthetic treatments and procedures. Like the space shuttle, **Lumineers** have been helping countless people see life from a whole new perspective.

We're not exaggerating when we say **Lumineers** can be life-changing. We've seen the results again and again, and the transformational power of a smile can never be underestimated. Patients visit our practice without smiling a single time. By the time their **Lumineers Smile Makeover** has been completed, they're beaming with self-assurance and poise.

What's so great about **Lumineers**, you ask? For starters:

- Lumineers are high-quality porcelain restorations
- They're about the same thickness as a contact lens
- They instantly mask stains, gaps, chips, and other flaws
- They will not stain or change color over the years
- They can be placed in just two visits
- The procedure requires no drilling or anesthesia

Lumineers are one of the best and most advanced products on the market today. They address all the concerns of the modern patient: time, quality, comfort, and cost. At Grand Dental Nichols Hills, our dentists have successfully completed thousands of **Lumineers Smile Makeovers**, taking into consideration the patient's unique desires, facial structure, and coloring. Every **Lumineers Smile Makeover** is custom designed, and every patient leaves with a custom smile that's as individual as each star in the sky.
