

## Look Younger with Cosmetic Dentistry from Grant Dental

If you want to look younger, what solution comes immediately to mind? Chances are it's not going to be **cosmetic dentistry**.

But it's true! For some patients, **cosmetic dentistry** can deliver greater benefits than plastic surgery. That's because, with cosmetic dental services from **Grand Dental Nichol Hills**, it's possible to accomplish two things at once.

First, our cosmetic services can help reduce the appearance of aging by giving you a stronger, more supportive smile. Second, by having a cosmetic procedure done, you could also be doing something to improve your oral health.

### Cosmetic Services at Grand Dental Nichol Hills

At our **Oklahoma City dental office**, we offer a wide range of services for patients, including:

- **Veneers & Lumineers**
- **Invisalign clear braces**
- **Teeth whitening**

Each of these can help you improve the esthetics of your smile, and, in turn, contribute to a more youthful, attractive appearance.

But as great as each of these can be, one service that straddles the line between cosmetic and restorative dentistry can actually do more good. With **dental implants**, you can have a functional, natural-looking smile that dramatically improves facial appearance.

So, which of these services is most right for you?

You can find out by calling our office and scheduling **your FREE first visit™**. We'll carefully consider your medical history and personal goals when consulting with you.

In the end, we're confident we can come up with a plan that will help your smile and improve your overall appearance at the same time. **Call us today** to schedule an appointment with **Dr. Kirk**, **Dr. Henry**, or **Dr. Proud**. **Grand Dental Nichol Hills** serves patients the greater **OKC** area.
